**HYDRATE + MOISTURIZE**

Shea Butter deeply moisturizes hair

Flaxseed Oil smooths strands and adds shine

Developed in Africa, with so many women and so much hair to care for, My Natural creates products for the modern African women that suits all African hair types, even when worn under weaves, braids or wigs.

Formulated with natural butters and oils, all My Natural products are free from sulphates, parabens, silicones, and mineral oils, making them safe for you and the environment.

The benefits of going natural are numerous Stronger, softer, healthier hair, no more expensive trips to the salon, a choice of hairstyle to suit your mood, lifestyle or outfit, and it's a great time-saver.

However, deciding to let your natural hair shine can be both liberating and challenging. It is My Natural's mission to help women on this journey, to empower them to go back to their roots and embrace their natural hair.

After talking to so many women, and after endless conversations, we found the biggest challenge was the lack of locally made, affordable and accessible products formulated for the specific needs of natural hair.

Your lips are one of the most prominent features to your look – they must be protected and cared for, to help them keep their health and beauty. What’s more, dried, chapped lips can be a painful, uncomfortable problem.

It’s vital, then that you introduce a good lip care treatment into your daily skincare routine.

At Vaseline, they call it Lip Therapy.

Our lips are exposed to much in a given day. From harmful UV rays when we’re out and about, to the dehydration that can be caused when we lick our lips.

Lips also don’t have the sebaceous glands that our skin does, so they miss out on the natural oils produced by these glands, that keep skin soft and supple.

It’s a gentle, non-sticky, non-greasy formula, too, so you’ll get all-day comfort as it works to repair your lips.

baby  
Dove

Bathtime with your baby is special, so you want the best baby wash. We know that baby skin is delicate as it is still developing during the first few months and throughout the first year. But did you know that it's actually 30% thinner than ours, making it more vulnerable to dryness? A baby's skin barrier is also weaker as it's developing, which means it loses moisture up to five times faster than our own.

To help protect your little one's skin, we created Baby Dove's baby products help make bathtime special. Unlike other baby washes, our tear-free and hypoallergenic baby wash and shampoo goes beyond mild cleansing by replenishing skin-natural nutrients to help skin retain its natural moisture. It is pH neutral and leaves your baby's skin clean, soft and effectively moisturised for hours after bathing.

Baby Dove's caring formula is created with no parabens, no SLS, no SLES and no phthalates. This gentle fragrance-free baby products is ophthalmologist, dermatologist and paediatrician tested. It is also suitable for babies who may be prone to eczema.

# White Glo<sup>®</sup>

White Glo was established in Sydney, Australia in 1993 and was originally developed for make-up artists who looked after the on-screen appearance of actors and models.

Following this demand, White Glo launched in 1995 with a mission to “use the latest research and technology to enable everyone to enjoy the confidence of a beautiful, white, brighter smile”.

In a short period of time, the original White Glo teeth enamel whitening system was successfully distributed to the rest of the world and proved tremendously popular with consumers from around the world due to the effective results, quality and value.

# REACH™

While flossing can seem like a hassle, it's super important. No matter how good your toothbrush is, it can't reach where your teeth meet or below your gumline.

Reach dental floss has a waxed surface so it slides comfortably between your teeth and below the gumline.

Unlike some other brands, it's shred-resistant, and at 50 metres in length, you get around twice as much as most other products.
