*Uncompromising
Quality*

Quality and flavour do not happen by chance. They are the result of constant checks at every stage of production.

Grandos is a brand of Deutsche Extrakt Kaffee, one of the largest and most technically sophisticated producers of coffee-based beverages in Europe.

From procuring and processing beans to packaging and distribution – Deutsche Extrakt Kaffee (DEK) has always monitored and supervised its coffee products along the entire supply chain. DEK's core business is the manufacture and distribution of instant coffee.

They believe in family values and is closely connected to the Hanseatic city's tradition that all can roast their own coffee. Johann Dietrich Rothfos laid the foundation for this in 1896.

Not only does quality motivate them but their wide range of products and expertise offer lots of points of contact for cooperation and innovation. Sustainability and environmental awareness along the entire supply chain will remain cornerstones of their approach to business.

They have clear values and top quality, simply good coffee!
